# Exclusive DAC6 insights: Top 4 hallmarks in practice

**Friday, 27 November 2020**  
**12pm - 1pm GMT**

The Baker Tilly International DAC6 Task Force Committee invites you to our 2020 virtual client webinar. We will be covering the top 4 hallmarks you should be aware of.

EU Member States have implemented the DAC6 Directive, which aims at increasing transparency in the field of taxation through a mandatory exchange of client information by tax advisors, legal advisors, accountants and all other “intermediaries”. But what is it exactly that these intermediaries must report, and in which cases do these reporting obligations apply? Are you aware of the reporting obligations of your advisor, or of your company? If not then let us guide you through the relevant hallmarks. We will share with you our insights, based on several relevant real-life cases.
